#### 25 Del & Hud....s 30 days 90} | 25 Del & Hud., b 6 Commercial and Money Matters.

The sales at the Brokers Board to-day were to a moderate extent and without material change in rates. The market was firm generally. Del. & Hudson improved 1 per cent. In State Stocks there was a limited business, but in New York and Ohio stocks the tendency was upward. State sixes sold at 85, an advance of 1; and 1000 with interest from January sold at 86. Ohio sixes improved 1; per cent. Indiana Bonds were firm, but Illinois fell off 11 per cent. selling at 14; For Kentucky Bonds 70 was offered. 

SECOND BOARD. There has been quite a large amount of France sold to-day at 5 40, at which rate good bills are now rather scarce.-Sterling is selling to some extent at 6] a 7].

Inland Bills are not in active demand, but the rates remain as before reported. | Charleston | 14 a 2 | Louis | 18 a 20 |
Savannah	24 a 2	St. Louis	18 a 20
Augusta	24 a 2		
Mobile	22	23	

Treasury notes are appearing rather more freely, and the rate has a tendency upward. We quote } a 1 discount. Moneyed men are beginning to recover confidence, and a better feeling exists in Wall street than has prevailed during the last month. The Bank of New-York has declared a semi-annual divi-

dend of four per cent. By the official report of the state of the Bank of Tennesee,

It is difficult to ascertain in examining the report in its details what excuse can be offered for continuing in a state of suspension. The following was the state of the New Orleans Banks on the 26th ult :-

 

 D3
 Specie.
 4,033,162 50

 D6
 Cash liabilities.
 10,364,453 95

 D6
 Cash assets.
 6,107,112 99

 The Philadelphia United States Gazette says that money matters continue to improve. The street rate is lower and the banks not much pressed. The banks held more specie than before resumption, and New-York still owes them six hundred thousand dollars. Since bonds were improving, salrs having been made at S81.

The Manufacturers' Insurance Company, Boston, in lieu of a dividend in money, have voted to create 1000 new shares from the earnings of the Company, giving one new share to holders of every three old shares.

Advices from Mobile represent that the pressure in the money market was unusually severe, in consequence of the beavy payments which were then falling due. A convention of all the banks in the State, except two, assembled at Mobile on the 4th instant, with a view to fixing a day for the resumption of specie payments.

# Markets.

ASHES-Nothing is doing except a parcel of Pots at the market rate.
COT FON-The market is quiet.

FLOUR-Some small sales Genesee were made at \$6 371; but there is little activity. The New-Orleans affoat is in negotiation-holders asking \$5.94 and buyers offering but \$5 871; about 1100 New-Orleans, an inferior brand, ' Page,' sold at \$5 00 yesterday. Nothing of importance doing in Southern.

GRAIN-Corn is improving and scarce. Sales 1000 bushels Northern at 61 cts. measure, and 1500 do at 65 cts. measure, for the East. Rye is scarce, and held, higher at 621 cts. About 1300 bushels Illinois Wheat sold for the Prov inces at \$1 23, and 1000 inferior for milling at \$1 20. Oats are rather firmer.

4, 21, 78, 82, 83, 85, 87, 27, 23, 30, 88 to 92, 152, 94 to 100, 33, 41,

TF PARTICULAR NOTICE.—Those persons having furniture of any description to dispose of, or who are breaking up house-keeping; will find a ready sale for any portion or all of their goods, by sending their address, or calling upon the subscriber. Goods to any amount purchased.

REPORT OF THE COMMITTEE CHOSEN BY THE LEGISLA TURE OF RHODE ISLAND TO EXAMINE INTO THE CONDITION OF THE RHODE ISLAND COAL COMPANY.—The Committee appointed to take into consideration the expediency of authorizing a Loan to the Rhode Island Coal Company, and

appointed to take into consideration the expediency of authorizing a Loan to the Rhode Island Coal Company, and a bill introduced for that purpose, respectfully report:

That they have personally visited the mine in Portsmouth and examined the works erected, the excavations made, and particularly the quality and quantity of the coal accessible, together with the facilities constructed and now employed for bringing it from its bed, and have made such inquiries as satisfy them of the tollowing facts, viz.

That the property of the Rhode Island Coal Company consists of about 40 acres of land in fee, and includes a wharf and dwellings to accommodate 50 workmen, with a harn, carpenter's and blacksmith's slop, a large and substantial engine-house, with buildings and sheds attached, 100 feet long, a steam-engine of 46 horse-power, with three boilers 22 feet by 30 inches, and a cast-iron pump 280 feet in length, 91 inches bore, 6 feet stroke of the piston, and weighing 28,000 pounds, being capable of raising 350 gallons of water per minute; with winding geer for raising the coal from the pit; all of which is entirely new. The engine and other machinery was made by William Burdon, of Brooklyn, New-York, and is of suporior construction and work-New-York, and is of suporior construction and work

nanship.

The excavation or shaft extends into the mine upward of The excavation or shaft extends into the mine upward of 280 feet, at an angle of 38 degrees, and upon it is laid a double railway. At a distance of 250 feet down this shaft, there are lateral shafts or openings to the right and left, each about 130 feet in length, upon which railways are also laid. With these, and other facilities, which are now nearly completed, the agent of this establishment states, that a carload (say about 1,300 lbs.) of coal can be delivered at the surface once in five minutes, which, from experiments performed in our presence, we think correct. The quantity of coal already brought into view by these excavations is immense; and our impressions are, from our own observation, and information derived from others experienced in the operations of mining, that the supply is probably inexhaustiand information derived from others experienced in the op-erations of mining, that the supply is probably inexhausti-ble, the quality inproving very much as the depth is in-cressed—that which is now mined being much superior to that formerly shrained. It ignites readily, and gives out an intense degree of heat. When recently due from the mine, it burns with considerable Tame, and leaves a red ash, like the best anthracite or Pennsylvania. Analyses have been made of this coal by several distinguished chemists; one, by Dr. Chilton, of New-York, within a few days, gives the following results :

Carbon.....81 Manganese and a trace of sulphur.

And your Committee, from their own experience, and from information derived from others who have used much of it, have no hesitation in pronouncing it equal to any coal now in use for most domestic, and all manufacturing pur-

The value of the real estate belonging to this establishment for agricultural purposes, independent of the coal, is supposed by good judges to be \$5,000. It has usually been taxed at \$4,000, when the mines were not worked. The cost of mining improvements is stated by the agent to be from 35 to \$40,000; and we should judge, from appearances, that the second and leave will be a stated by the agent to be that the second and we should judge, from appearances, that the money had been well applied and judiciously expended. In addition to the 46 acres before mentioned, the Company own the coal under 75 acres more adjoining, with the privilege of mining the same. It may be proper here to mention, that the depth now attained is from 30 to 100 feet perpendicular below any point ever before reached at these mines, and the system of mining is altogether superior to that formerly practiced, being the same practiced at the Beauty-Large process.

that formerly practiced, being the same practiced at the Pennsylvania mines.

Regarding, as we do, the great public importance of this work, in its tendency not only to reduce the price of so essential an article as fuel, but also to retain money in our own State instead of paying it to others, and that it is the duty as well as policy of all wise governments to encourage the development of hidden sources of wealth within its own limits, and thereby promote the industry and increase the comfort and happiness of the community, your Committee report the bill referred to their consideration, and recommend the loan proposed. CLARKE CHASE.

Since that time I have suffered much pain in that lung attended with difficulty of breathing and very severe coughing, during which time I raised a great deal of putried matter. I believe I was on the border of the Consumption. I was attended by different physicians, but all to no purpose. Also the six weeks ago I got a bottle of your Balm of Life, and I am nappy to say that my pains have subsided. I am entirely relieved of my cough, and with the exception of weakness, I feel about as well as I ever did. I have great confidence in your medicine for diseases of the lungs. You are at liberty to do with this letter as you see proper.

M. DERBEY, No. 29 Spring et.
